1. MESSAGE FROM THE CHAIR

I would like to express my sincere thanks to Reynald Labelle who was the Chair of the Board of Directors of the Aylmer Food Centre from 2013 to 2019. His contributions include a major reorganization of the operations of the Centre as well as the purchase and renovation of the new building in 2016. We can truly consider him a “saviour” for the Centre. In leaving his position last June, he assured us of his total support going forward. We can say that he has the Centre tattooed on his heart. Thank you Reynald.

The news of his departure was a shock for all of us. We always say that no one is irreplaceable, but Reynald is one of those people who is very difficult to replace. After a period of reflection and consultation, I decided to put my name forward to become Chair of the Board. Several reasons led me to make this decision. I had been the Secretary of the Board since 2013 and was involved in most committees, and therefore was familiar with most files. Also, I knew most of the other members of the Board and was confident that I could count on their support. As well, I was regularly exposed to the passion and leadership qualities demonstrated by the Director General and his team. Furthermore, since I was one of the signatories of cheques, I was often present at the Centre. I can therefore attest to the great work of the Centre. With the arrival of new members on the Board. I saw great potential in the new members that had recently joined the Board. There are even two new members who are part of the Executive Committee. I have now been the Chair since June 20, 2019 and have the support of the members and am confident in the management of the Centre. I will do my best to carry out my responsibilities.

My regular meetings with the Director General ensure that I am apprised of the multiple files. A special thank you to the Vice-Chair, Serge Pelletier, for his invaluable support. The members of the Board work on various files including, first and foremost, our wish to expand our services for the vulnerable families of Aylmer. We would like to offer more services in other areas of the city and to offer food aid at new times. There is also the possibility of a sale of a part of our land while maintaining parking spaces. Discussions have occurred with Logements de l'Outaouais to build housing for low-income seniors. There is a crying need for that type of housing in our sector.

Despite our building needing some renovations, such as a new roof, the financial situation of the Centre has improved. It is not as precarious as it once was. It is important to underline the role played by the Director General towards that accomplishment. The Centre regularly makes requests to the Integrated Health and Social Services Centre of the Outaouais (CISSSO) to obtain additional funding for its operations. Unfortunately, these requests have not been as successful as we would have hoped, but we will continue to push for increased funding.

In closing, as spokesperson of the Board of Directors, I am proud to acknowledge the hard work of the employees, the generous volunteers, our supporters, our donors as well as my colleagues of the Board. The difficult period of the last few years is behind us. There is no doubt that the Aylmer Food Centre is an essential organization in our community.

Jacques Boisvert
Chair of the Board of Directors

2. MESSAGE FROM THE DIRECTOR GENERAL

ALONE WE CAN DO SO LITTLE, TOGETHER WE DO SO MUCH!

It is always a pleasure to present the annual report. Everyone (or almost everyone) in Aylmer knows that the Centre helps families in need of food aid. In addition, the Centre provides discrete psychosocial aid to the families. This aid falls within the values of the Centre. I invite you to read the following chapters presenting the results of the food aid as well as of the services to families. We must recognize the work of the employees and volunteers who interact with the recipients on a daily basis.

Since 2014 and in spite of its financial difficulties, the Centre has improved its programs, services and activities. We have gone from 98,963 kilos of food distributed in 2014–2015 to 149,599 kilos this year. We went from 545 individual interventions to 1,487 in 2019–2020, and finally, we have referred 2,829 people to other organizations, compared to 469 in 2014–2015.

The management of an organization like the Centre is always difficult for a variety of reasons:

- We have very few employees;
- We have a high level of turnover. Thanks to grants from Emploi-Québec, we have hired 25 people since January 2015;
- Confronted with choosing between essential and incidental with a fresh perspective on what is essential, we need to choose between what would be ideal and what is realistic; and
- Many actors are involved in the operations of the Centre: the Board of Directors, the Director General, the employees and many volunteers. We are constantly reflecting on what we do and the Director General must navigate all that.

For the last five years, our efforts have been dedicated to improving the management of the Centre: difficult financial situation in the short, medium and long term, the purchase of the building, administrative practices. Today, I think we must move on to a new phase, reviewing whether the services that we offer are still the right ones. Do we need to review some of them? Do we need to offer services in a new way? These questions are being discussed with a number of volunteers who are truly committed to the Centre.

Thanks to the generosity of donors (money and food) and volunteers, even with financial difficulties, we can pride ourselves in being able to improve the quantity and quality of our services, both for food aid and for psychosocial aid. These results have been achieved because the Aylmer community and the Centre are tightly knit. This is also because there are so many people participating in this important cause.

Thank you to all

Gérard Émond
Director General

3. MISSION AND VALUES

The Aylmer Food Centre's mission is to develop various initiatives to counter the impoverishment and poverty of the Aylmer sector.

The various initiatives are first and foremost to provide food to those in need in the Aylmer community, but the Centre also offers front line social assistance to the best of its financial and professional capabilities.

The values of the Centre are social engagement, equity, respect, compassion, sharing, mutual aid, and independence. All the players involved (beneficiaries, volunteers, staff, members of the Board of Directors) are committed to these values and work together in full respect of the Code of Conduct and Ethics.

7. VOLUNTEERS WITH A HEART

The Centre is proud to count on the work of exceptional volunteers. It is thanks to them that the Centre exists.

Giving to others is an investment in ourselves and in our happiness on a daily basis. It is also a gesture of gratitude for life when we contribute to the well-being of the families in our community.

Thanks to all our volunteers, whose efforts and competencies provide a valuable contribution to the Centre. Thanks to the volunteers who bring a sparkle of life and magic to every moment of their generous work.

Each one, in a unique way, leaves a mark on the Centre and the community. Their actions are essential and their commitment is at the foundation of the Centre.

We would need an eternity to properly express our gratitude.

Thank you!

8. TESTIMONIAL BY A VOLUNTEER

When I was asked to write a few words about my experience as a volunteer, I realized that I am starting my fifth year at the Food Centre. Throughout the years, I saw the various initiatives that the Centre puts forward for our clientele, for whom we are often a last resort.

The team is constantly working to meet the needs of each participant. As volunteers, we have the opportunity to offer our ideas and our talents, and to decide where we feel we can make a difference. The team includes us in their projects. We create new friendships, and support each other in difficult times.

The Centre has met my expectations as it constantly asks us to respond to new challenges. We improve the quality of life of many people and hopefully we bring them support, comfort, and an encouraging perspective for the future.

I will continue to work with the Centre for quite a while because it brings me so much happiness and personal satisfaction.

In these difficult times, we hope that COVID-19 will end so we can go back to the work we care so much about and that means so much to many.

Thank you

Johanne Pellerin-Lafrenière

9. TESTIMONIALS BY PARTICIPANTS

"Since I have been coming to the Centre, I am eating better. Meals are good and easy to warm up in the microwave."

We have to get over our pride and come knocking at your door. We are happy to since it allows our family to eat. We have also created relationships with dynamic people who remind us of the importance of mutual aid. We want to thank the entire team of the Food Centre.

"You are an extraordinary team. The people at the Centre are welcoming and nice. The atmosphere is great."

Everyone goes through difficult times. It is not always easy to accept that we need help. I am one of those people. The support for my family has been essential. The angels exist everywhere and the work that you do is exemplary. I wanted to let you know.

10. VOLUNTEERS OF TOMORROW

It is unquestionable that the volunteers of tomorrow are today's youth. For a young person, volunteering is learning to be a citizen of the future; it is an act of citizenship.

The volunteers and donors of tomorrow are a present concern for the management of the Centre since the Centre's survival depends on volunteers.

Thank you to the Culinary Brigade of the École secondaire Grande-Rivière!

The Aylmer Food Centre would like to underline the generosity and work of these young chefs! They prepared 45 family-sized vegetarian lasagnas and gave them to the Centre! A very nice gesture. Thank you and keep up the good work!

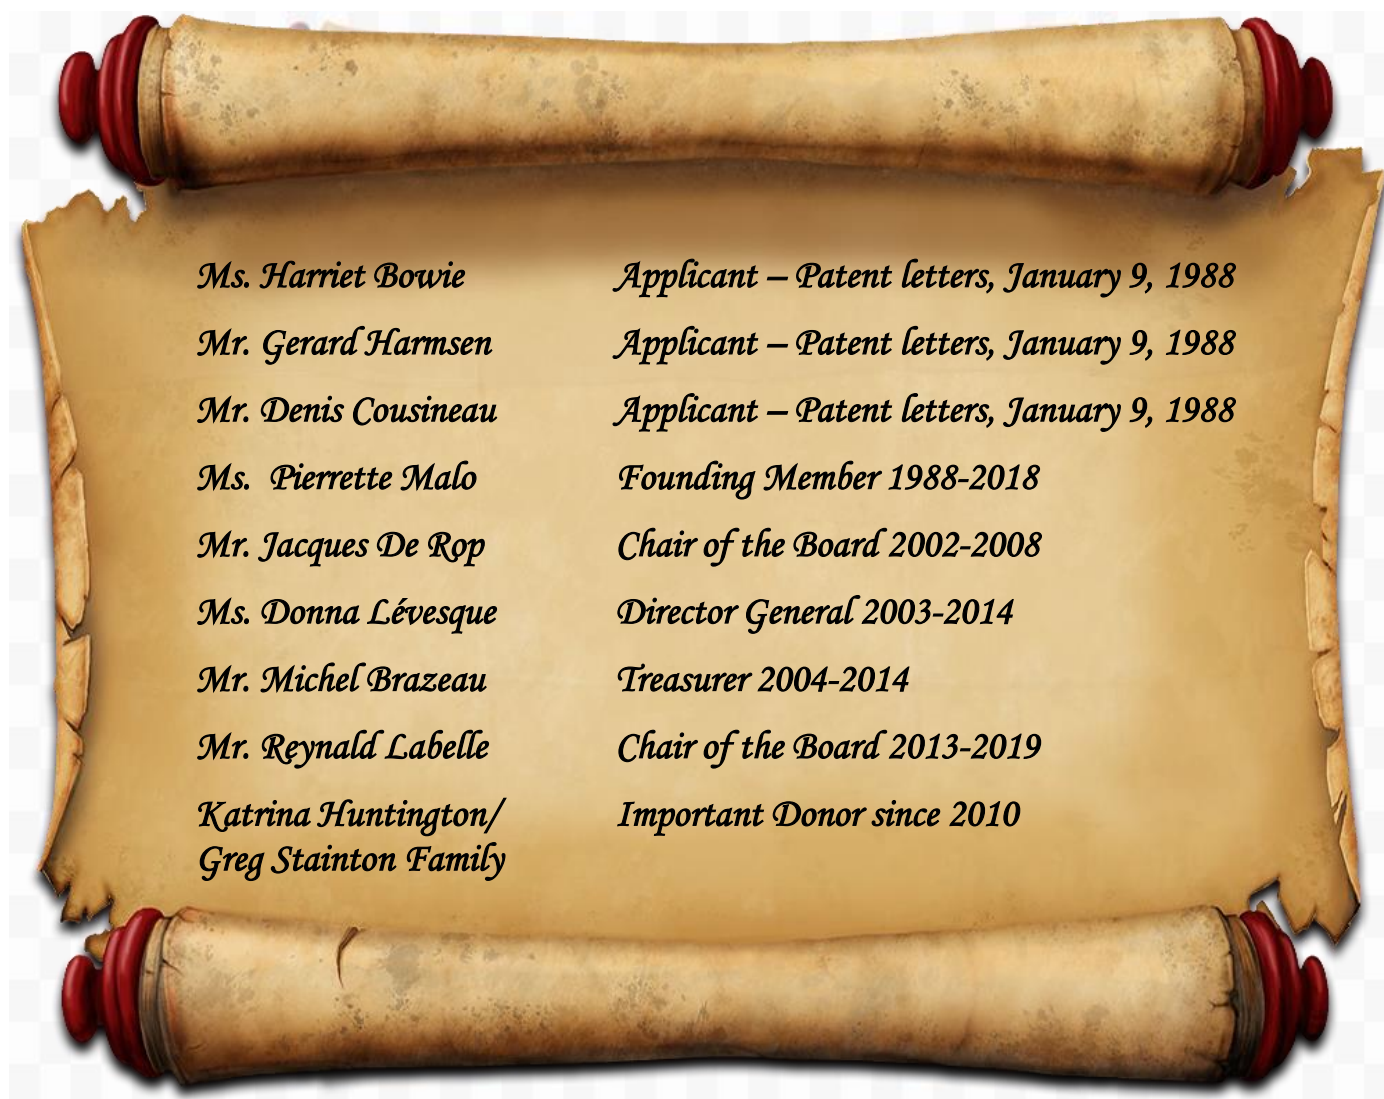

11. ACKNOWLEDGEMENTS – DEVOTED VOLUNTEERS

Volunteers contribute their time, skills and talents to the operations of the Centre. They are acknowledged for their contribution and commitment to the Centre.

12. HOMAGE TO EMERITUS MEMBERS

The Aylmer Food Centre has created an archival repository and in July 2019, the Board of Directors designated emeritus members that made important contributions to the Centre since its foundation in 1988.

*Friendship is a star, love is a
flame, a flame can go out,
but a star is forever.*

*Thank you for giving me
back confidence in myself.*

*Speaking for my family, thank you
so much, you have saved my life.*

You are a really great team.

14.3 THE IMAGES GROUP (CISSSO) AND THE AYLMEYR FOOD CENTRE

RAMQ – Medical card

A Great Partnership!

The Aylmer Food Centre, as a community organization, receives funding from the Ministère de la Santé et des Services sociaux (Ministry of Health and Social Services) as an independent partner of the health and social services system. At a January 23, 2019 meeting with the Associate Director General of CISSSO, Stéphane Lance, the Centre requested assistance with health and social services for its clientele. A relationship was then created between the Centre's community workers and the CISSSO. The results have been excellent.

Since March 2019, we had regular visits from the ***Interventions pour mieux agir en exclusion sociale (IMAGES)*** group (Interventions to best fight social exclusion), an assessment and intervention service aimed at promoting the integration of homeless people into the community. Its objectives are to: prevent the degradation of and even improve the living conditions of the homeless, and support the clinical plan, the professionals, and the community resources working with the homeless.

The Centre's team has often noticed that some participants have trouble accessing services. The issues raised include: access to health care, social assistance, housing, immigration issues, as well as HIV, AIDS, alcohol abuse, drug abuse, mental health issues, illiteracy, serious social isolation, legal issues, etc.

Since March 2019, the Centre collaborated with the Régie de l'assurance maladie du Québec (RAMQ). As part of this program, the Centre confirms the address and identity of participants who request a medical card. We offered information sessions on how to obtain the medical card for free and with less red tape. Five participants have received their cards so far.

In only a few months this partnership has grown. We now offer referrals and coordinate appointments and follow-ups between our participants and the IMAGES staff. In addition to the individual interventions for our participants, we are planning a series of workshops on the issues and needs of our participants, in order to better inform and equip them. We thank the IMAGES group for their devotion to the Aylmer sector.

BRAVO !!!

14.4 MOST FREQUENTLY USED RESOURCES

14.5 PSYCHOSOCIAL COMPONENT AND PROGRAMS

As part of its community approach, the Centre helps families obtain services (such as housing, employment, support programs, hospital care) from partners in the area.

The Centre continued to offer a broad range of programs and services related to food aid as well as encouraging participants to take control of their lives. In particular, activities were organized aimed at improving day-to-day life skills and encouraging social and professional inclusion to improve their living conditions. Other complementary programs were offered such as collective kitchens, workshops on healthy eating, making healthy lifestyle choices and budgeting, workshops on legal issues (pro bono), clothes distribution, Chefs en herbe, 1000 Days to Savour Life, Families in Action, C'est la fête and workplace integration.
